

Metra Electronics, a privately held manufacturing company headquartered in sunny Central Florida is searching for results orientated people to join our growing team. Metra is the premier manufacturer of after-market car stereo installation kits, the installers' choice. We have been the leader in the aftermarket industry since 1949.

Our foundation was built on the design and manufacturing of ABS dash kits for aftermarket radios. Over the years we have expanded into many other industries, like electronic interfaces, home theater, vehicle lighting and safety.

We have been providing installation products to installers and distributors for over 70 years with 5 other distribution centers nationally. As we continue to flourish, we are seeking results orientated people. We are currently looking for a Tool Room Manager to run our Tooling department.

## **METRA ELECTRONICS CORPORATE MISSION**

To enthusiastically and aggressively approach any opportunity to utilize our brain trusts, facilities, strategies, alliances and capital for the advancement of our employees and stakeholders. There will be no limitations as we strive to create, innovate, manufacture and deliver high quality, good value products to not only satisfy but also astonish our customers. By following our vision and attaining high levels of honesty and integrity, we will experience the joy of competition and winning.

### **TOOL ROOM MANAGER**

We are in need of a Tool Room Manager to oversee the building, maintenance, repair of all of our molds for our plastic injection molds. Relocation assistance and a competitive salary.

The ideal candidate will have the following background;

- Minimum 10 years' experience in Mold Building (Tool Making, Mold Design and programming CNC Machines).
- Management experience required
- Strong leadership and teambuilding skills
- Computer proficiency required-MASTERCAM REQUIRED
- Ability to read and interpret blueprints and manipulate 3D models (Cimatron)
- Experience quoting new tooling and engineering changes; preferably high cavitation molds/stack molds and medical molds
- Manage daily shop operations and scheduling
- Manage workflow and maximize efficiency by directing jobs to the most qualified personnel
- Maintain safe, secure and healthy environment by adhering to company safety standards
- Quote new tools and engineering changes
- Assist in developing future budgets (Sales & Capital)
- Monitor performance and efficiency of employee's work efforts
- Coordinate/participate in internal & external mold design reviews

**We offer competitive wages, paid vacations/holidays, medical/dental/vision & 401K with a company match.
